XYPRO Technology Corporation Modern Performance and Operation

Speaker

Rob Lesan, Solutions Architect from XYPRO Technology Corp.

Title

XYGATE Data Protection – security without the headaches

Abstract

XYGATE Data Protection brings tokenization and/or encryption to existing NonStop based applications with OR WITHOUT your developers! Find out how XYPRO can bring world class data protection with full auditing functionality to your existing applications and how we can help modernize your new ones without having to resurrect the original developers. No code changes! Really!
