Hewlett Packard Enterprice

Title

NonStop as a Service: A path to Hybrid cloud for NonStop workloads

Abstract

This talk summarizes HPE's vision for enabling customers to deploy mission-critical workloads in a hybrid cloud environment i.e. on-prem, private and public clouds. The talk will cover what is available today, the near term deliverables and the journey towards adding more aaS capabilities to the offering

Speaker

Prashanth Kamath, HPE NonStop Product Management
