OmniPayments LLC.

Title

OmniPayments Google Cloud success story for VISA, MasterCard, Amex and Fraud Management. Splunk, Kafka, Offender, System Monitors for NonStop customers.

Abstract

Yash will share the experience from deploying OmniPayments in the public cloud. The OmniPayments switch is used for Mobile, Ecommerce, Debit, Credit Card and Virtual Card transactions. OmniPayments is successfully deployed in the Google Cloud. We use our tools to export data to Splunk and Kafka. The Offender product is used to monitor CPUs, Processes and system performance.

Speaker

Yash Kapadia, CEO
