**Abstract Presentation  
10 April 2024 - 11.15 h**

## **Hewlett Packard Enterprise**

### **Title**

The Art of the Possible 2024

### **Abstract**

What are some hot topics that keep your CIOs/CTOs awake at night -- and how can NonStop help to address these issues, achieve your future business outcomes and create new value? Get inspired by a talk that bridges the gap between bigger challenges and technology to help you have higher impact conversations with your management towards the future success of your organization....and your own. Please join me in this 2024 update of the session with new content on topics like modern architectures, AI/ML and NonStop, Observability, as-a-Service discussion, NonStop futures and more.

### **Speaker**

Franz König, Director WW ATC & Business Development
