Abstract Workshop II
14 May 2018, 14.00 h

Hewlett Packard Enterprise

Speaker

Matt Lennie , Marvin König, Marcus Friedrich
HPE Pointnext Advisory: Blockchain Technology

Speaker Biography

Marvin König and Marcus Friedrich are Master Students with a focus on Blockchain Technology for HPE's services organization Pointnext. They advise customers on how they can leverage the full potential of Blockchain/DLT projects using HPE's Blockchain Discovery Workshop methodology. Furthermore they accompany customer projects from the early ideation to the Proof of Concept.

Title

Blockchain - Decentralization of Trust
Beyond the hype

Abstract

While Blockchain is one of the most influential and disrupting innovations of the past years it is important to use this technology only where it really creates a value. This workshop is meant to go beyond the hype. How does this technology work? What benefits can I derive from it? Where can I apply it? Those and other questions will be answered.

Agenda.

- 14.00 – 14.15 Introduction
- 14.15 – 15.00 Blockchain basics
- 15.00 – 15.45 Blockchain in a business environment
- 15.45 – 16.15 Break
- 16.15 – 17.00 Ideation for Blockchain Use Cases
- 17.00 – 18.00 Result presentation & discussion
